About Company

FasTech Engineering is a premier provider of IT and electrical engineering services and equipment. Our company is owned and operated by engineers who have graduated from FAST National University of Computer and Emerging Sciences, with specialization in Electrical Engineering. We specialize in Solar panels, CCTV cameras, inverters, and a wide range of other electrical equipment. Our team of EIT certified electrical engineers is dedicated to providing installation, services, and equipment to customers both inside and outside of Pakistan. Our vision is to provide our clients with the highest quality products and services at the most competitive prices, and to deliver them in a timely and efficient manner.

Engr. Samiullah Ishfaq

Chief Executive Officer (CEO)

Welcome Message

As the CEO of FasTech Engineering, I am proud to lead a team of highly skilled and dedicated professionals who are committed to providing our clients with the best possible service. We understand that technology and engineering are constantly evolving, and we are dedicated to staying current with the latest advancements in order to provide our clients with the most advanced solutions.

We are dedicated to providing our clients with the highest quality products and services at the most competitive prices, and to delivering them in a timely and efficient manner. We are committed to building long-term relationships with our clients, and we believe that our success is directly tied to the success of our clients.

Engr. Haider Sultan
Chairman

Welcome Message

As the Chairman of FasTech Engineering, I am proud to be a part of a company that is dedicated to providing innovative and high-quality solutions to our clients. We have a team of experts in the field of IT and electrical engineering who are well-versed in the latest technologies and are able to provide our clients with the most advanced solutions.

We understand that safety and compliance are crucial in our industry, and we always follow the latest safety standards and regulations in our work. Our team is trained to work safely and efficiently, and we take pride in our strong safety record.

We are dedicated to delivering our products and services on time and within budget, and we always go the extra mile to ensure that our clients are satisfied with our work.

Vision & Mission

Vision

To be a premier provider of IT and electrical engineering services and equipment, known for delivering innovative, high-quality and sustainable solutions to our clients, and to be recognized as a trusted and reliable partner in the industry. We aim to empower progress and shape the future by providing cutting-edge technology, superior customer service and ethical business practices. We strive to be the go-to company for anyone looking for reliable and efficient IT and electrical engineering services and equipment, both locally and globally.

Mission

To provide our clients with the highest quality products and services at the most competitive prices, and to deliver them in a timely and efficient manner. We strive to exceed our clients' expectations by staying current with the latest technologies and industry trends, and by fostering a culture of excellence among our team members.

Our Services & Products

Services

At FasTech Engineering, we offer a wide range of services to meet all of your IT and electrical engineering needs. Our services include:

- IT Services: Network design, implementation, and maintenance, as well as cloud computing and data center solutions.
- Electrical Engineering Services: EPC projects, camera installations, renewable energy consultancy, and solar installations.
- Maintenance and Support Services: We provide ongoing support and maintenance services to ensure that our clients' systems are running smoothly and efficiently.

Products

In addition to our services, we also offer a wide range of products for sale. Our products include:

- CCTV cameras
- Solar panels
- Inverters
- Other electrical equipment such as breakers, pure copper wires, and other accessories.

Solar Panel

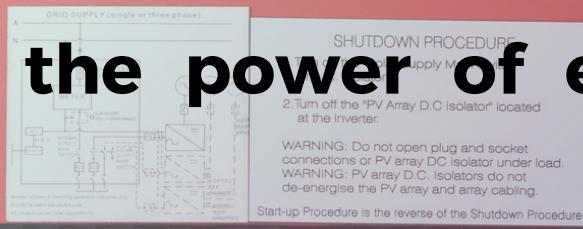

**Harnessing the power of the sun,
for a sustainable future.**

Solar panels are devices that convert sunlight into electricity. Our panels are made with the latest technology and highest quality materials, ensuring maximum efficiency and longevity. Our solar panels are designed to withstand harsh weather conditions and can generate power even on cloudy days.

Inverter

Unlocking the power of energy efficiency.

Inverters are devices that convert DC electricity into AC (alternating current) electricity, which is the type of electricity that is used in most homes and businesses. Our inverters are designed to be highly efficient and reliable, and they come in a variety of sizes and capacities to meet the needs of any application.

CCTV Camera

Eyes everywhere, security everywhere

CCTV cameras, short for closed-circuit television cameras, are devices used for video surveillance. They are used in a wide range of settings, including homes, businesses, and public spaces. Our CCTV cameras are equipped with the latest technology, including high-definition imaging and night vision capabilities, ensuring that you have a clear view at all times.

How We Work

1

At FasTech Engineering, we take a customer-centric approach to our work. We listen to our clients' needs and tailor our solutions to meet those needs. We work closely with our clients to understand their unique requirements and provide customized solutions that are tailored to their specific needs.

2

We are committed to providing high-quality products and services that meet or exceed industry standards. We have a strict quality control process in place to ensure that all of our products and services meet the highest standards. We use only the best equipment and materials in our work, and we are constantly updating our knowledge and skills to stay current with the latest technologies and industry trends.

3

We understand the importance of safety and compliance in our industry, and we always follow the latest safety standards and regulations in our work. Our team is trained to work safely and efficiently, and we take pride in our strong safety record.
